PER CEPTIVE

We hold the key
to your success.
Now and in the
future

INSPIRING

Your partner
for first class
services

As an SME, entrepreneur or wealthy private individual, you need access to the finest trustee and consultancy services. Services tailored to your specific needs. Services that comply with legal and ethical principles. Services which assure your long-term success. That is precisely what Swiss Trust Company offers you.

One of our specialties is comprehensive assistance for entrepreneurs – we support you with tax planning, pension schemes, inheritance planning, accounting and auditing.

MA TU RE

Still here to serve you in our second century

Founded in Basel in 1906, Swiss Trust Company is Switzerland's oldest trust business. We combine tradition and experience with progress and receptiveness to change. Our services take account of developments in the economy, law, politics and society. For your peace of mind, more than 50 employees at 7 sites all over Switzerland give you the benefit of expert advice and support in 5 languages. Our services are of course also available to foreign customers.

Our indepen- dence is your trump card

As a client, you may rest assured that your needs are uppermost for us. We advise you without regard to the interests of third parties as Swiss Trust Company is completely independent. The business is wholly owned by its partners and employees. Our solutions are tailored to your needs, enabling us to achieve our goal: your success. Because that makes us successful too.

Rely on us

You are entitled to expect your trustee and consultant to be a qualified professional with discretion, entrepreneurial thinking, a flair for figures, an understanding of the background situation and enjoyment of his job. Our employees have those skills and aptitudes. Trustees, auditors, book-keepers, tax consultants, lawyers, financial specialists and managers work together for your success. Our relationship with our clients is guided by confidence and respect.

PRO FO UND

Your accounts under control

When you know your figures, you manage your business more securely, effectively and successfully. You can rely upon our financial and accounting services – for bookkeeping, advice on financial statements, financial management, cost accounting and controlling. We keep your figures accurately, punctually and in a legally compliant manner. The very latest software relieves you of routine tasks. We can of course answer every question about the latest national and international accounting standards.

Close scrutiny on your behalf

Screening, checking, confirming – only when an audit has given the green light can you close your financial year. We audit your annual account statements and advise you on ways to save costs and improve processes. On request, our specialists will help you convert to Swiss GAAP FER or IFRS.

Are you looking to buy or sell a company? We perform valuations and handle purchases and sales efficiently with you to meet your needs.

Enabling you to pay the right taxes

Of course you do not want to pay more tax than you have to. Companies and wealthy individuals must find their way through the thicket of tax laws and regulations – a challenging task. Our tax experts and legal advisers put you on the right track, even if your business is international.

We advise foreign businesses and persons when they settle in Switzerland. We clarify all issues with the tax authorities.

JU DIC IOUS

Your rights are our obligations

As a corporate body or an individual you are entitled to your rights. Our lawyers make sure that they are respected. We advise you in all areas of private and public law, both nationally and internationally. The main emphasis is on property and inheritance law, the law of contract, capital market law and company law. Of course, we draft your contracts and documents in compliance with the Swiss Code of Obligations and civil law. If necessary, we call upon the services of outside attorneys and notaries.

Your family fortune in good hands

Through a family office, we deal with leading private companies and their proprietors at home and abroad. A team of experts prepares a personal asset strategy with you and goes on to implement it. We handle administrative tasks, such as payment transactions, and monitor your insurance policies. We keep your private accounts and draw up your tax returns. On request, we also handle contacts with authorities and your official correspondence.

Generation change made easy

When will you be placing your family assets in the hands of the next generation? How can you protect your assets? We set up and administer family foundations, trusts and charities, Swiss and foreign companies under various jurisdictions. Through our network of experts in many countries we are able to offer you the finest possible solution. Some of our employees belong to STEP, the world's biggest organisation for trust specialists.
